7	MT3128 2538 09	HOSE ADAPTOR STRAIGHT	6	
8	MT3128 2538 08	THREADED SLEEVE	16	
9	MT3128 2538 10	HIGH POWER PIPE	1	10m
10	MT0580 2202 00	PIPE COUPLING 90°	4	
11	MT31287 2538 91	HOSE ADAPTOR 90° SHORT	10	
12	MT3128 2539 95	CHECK VALVE - GREASE	6	
13	MT0544 2162 00	GREASE NIPPLE	1	
14	MT3128 3005 37	PLUG	4	

Background.

The SB grease system was designed primarily to allow manual zoom greasing from a safe position at each side wheel arch.

It is also effective when correctly connected to an auto grease system.

Additionally, the schematic prioritizes grease to the top surfaces where most load and wear are present.

Grease to lift cylinders is optional although testing proved them ineffective due to constant damage to fittings and hoses by the feed.

Note - only one port is applied to the lower zoom plate as both nipples grease to the same plate groove is greased with the other receiving a manual nipple.
